

## Dean Tennis and Squash Club Policy on Supervision of Children

The club requests that parents/carers be aware of the following club rules and recommendations, which are in line with advice from the LTA:

- We recommend that children under 14 are supervised at all times while at the club.
- Children under 14 are not to be in the clubhouse unsupervised except to use toilets in the corridor, or to access the first aid box.
- As the club is unable to ensure child-only use of changing areas, children under 18 may not use the changing rooms except under direct supervision of their parent/carer.
- We require a parent/carer to bring and collect children under 14 or make known arrangements for alternative adult supervision to the coach or opponent (as relevant) and their child.
